

Where you have ignorance in the church or indifference toward doctrine, you have consequent immaturity and consequent shallowness, which leads to a lack of discernment which opens the door wide to Satan's deceptive seductions.

For Satan to succeed, all that is necessary is that people not understand the truth. And if they have not the truth, then they have no capability to discern the error. And if you couch the error in the right language, if you put it in terms that sound familiar and refer to God and Christ and the Bible, et cetera, the seduction is even more potent.
